### **Performance Initiatives Undertaken 05/25/2017-05/24/2018**

During the reporting period, the Unit participated in two (2) job and career fairs: the Salt Lake Community College South City Campus Mini Career Fair on October 10, 2017; and the Hiring Utah’s Heroes career fair on November 7, 2017. Both the HR Generalist and the HR Business Partner participated in these events.

During the reporting period, 34 students participated in the Unit’s internship program from the following schools: Brigham Young University (11 students), University of Oklahoma (3 students), Utah State University (1 student), Utah Valley University (1 student), Arizona State University (1 student), Brigham Young University-Idaho (1 student), University of Utah (5 students), Weber State University (1 student), Westminster College (2 students), Hillsdale College (1 student), Bryn Mawr College (1 student), Southern Utah University (1 student), LDS Business College (4 students) and Olympus High School (1 student). The internship program allows students majoring in journalism, broadcast communications or related fields to receive academic credit while acquiring skills needed for employment in the broadcast industry. Departments involved included: KSL Radio News, KSL TV News, KSL TV Studio 5, KSL TV Sports, KSL Radio Digital Content, KSL TV Graphics, and KSL TV Production.

The Unit welcomed 1,594 Boy Scouts, Girl Scouts, Youth Groups, School Groups, Colleges, Family Groups, and Community Groups to our facilities to learn about the broadcast industry by taking a tour. As the groups tour the stations, the staff answer questions and share the specific requirements, both educational and professional, required for a variety of positions within the television and radio industry. The tours allow individuals an opportunity to see a variety of departments and positions involved in producing television and radio broadcast.

The Junior Weather Specialist program, in which the Unit’s Meteorologists visit local schools, continued during the reporting period. The Meteorologists visited 75 schools in different towns around the state of Utah to teach students about the weather and broadcast meteorology.

Staff from various functions within the Unit have visited various schools and civic groups, sharing their broadcasting experiences and participating in events to further understanding of broadcasting professions. In September 2017, one of our nighttime Anchors taught children at McPolin Elementary School how to deliver televised announcements and spoke with them about news skills that could help them in their lives and careers. On October 2, 2017 a group of students from a Salt Lake Community College Radio and Television class visited the station for a tour and Q&A session with one of our Anchors. On January 23, 2018 the HR Generalist and HR Business Partner led an information session for roughly 60 students at Weber State University to share career opportunities at the station and answer questions about careers in broadcast media. One of our Anchors addressed a local youth group that had come to the station about broadcasting careers and answered their questions on February 18, 2018. Our Deputy Managing Editor of Enterprise visited the student media practicum class at the University of Utah on March 8, 2018 to speak about investigative reporting, career opportunities and skills required to work on a special projects team. On March 22, 2018, one of our Reporters held three sessions at Maple Mountain High School to educate students about careers in broadcasting as part of the school's career day. On March 28, 2018 our Promotions and Brand Manager participated as a consultant with the Brigham Young University AdLab Expo, reviewing student portfolios and resumes and providing career advice to those interested in media careers. On April 23, 2018, our Director of Audience Development met with a group of journalism students at Utah State University and addressed media and the impact of digital disruption on the industry. On May 25, 2018 four employees from the Sacramento unit attended a career day as guest speakers on broadcasting.

In order to promote understanding of and compliance with our policy of equal opportunity employment, all employees were required to complete two online trainings at the end of 2017: *Sexual Harassment Prevention* and *Discrimination and Harassment Prevention*. Managers were required to complete a version of the trainings designed for supervisors. Beginning in January 2018, all new employees have been required to complete the two trainings as part of their onboarding process.

During the reporting period, five (5) students participated in the Unit's job shadow program: Roy Jr. High School (May 2017); Brigham Young University (August 21-25, 2017); home schooled student (February 27, 2018); Olympus High School (March 14, 2018); and Fort Herriman Middle School (May 2018). The Sacramento unit hosted a job shadow day for foster kids from a local school district on January 12, 2018. The job shadow opportunities enable the students to observe and learn about many aspects of a television and radio station. Employees share their experiences and educational backgrounds for a variety of careers in broadcasting.
